PENNINGTON
THE GRASS SEED PEOPLE

1 STEP COMPLETE

For Dense Shade Areas

YOU'LL SOON SEE THE 1 STEP COMPLETE™ SEEDING MIX DIFFERENCE!

Pennington 1 Step Complete® Seeding Mix system makes it easy to grow beautiful, thick, water-saving grass. Everything you need is pre-mixed and ready to use all in one jug. Simply apply, water and watch it grow. Our super absorbent seeding mix holds and maintains moisture around the seed while providing the essential nutrients needed to grow beautiful, thick grass.

Pennington® Grass**

Ordinary Grass**

Pennington 1 Step Complete® Seeding Mix system grows **80% THICKER WITH HALF THE WATER** than ordinary grass seed* during the critical germination period.

And because Pennington 1 Step Complete® Seeding Mix system contains our Pennington Seed Smart Seed®, you'll continue saving water once the grass is established: **UP TO 30% LESS WATER** versus ordinary grass seed.

Smart Seed®
SAVES UP TO 30% WATER*

ESPECIFICACIONES DE SIEMBRA

Índice de Siembra:
1 lb. por 20 pies cuadrados (área de 4 x 5 pies)
El Paquete Cubre:
60 pies cuadrados (área de 6 x 10 pies)

Profundidad de Siembra: 1/8"	**Tolerancia al Tráfico:** Moderada
Surgimiento de Planta: 7-10 días	**Tolerancia a la Sequía:** Buena
Luz Requerida: Sombra Mediana a Sombra Densa	**Altura de Corte:** 2½-3"

Césped Denso Y Hermoso – Garantizado!

1. PREPARE
Remueva todo el desecho, después rastrille para aflojar la tierra y suavizar la capa de arriba.

2. APLIQUE
Propague la mezcla de semillas no más de a 1/8" de profundidad en cualquier área donde desee obtener un césped exuberante y hermoso.

3. RIEGUE (El Paso Más Importante)
Mantenga el suelo húmedo! Riegue diariamente (dos veces al día si es necesario) hasta que los retoños alcancen 2½-3" de altura. La cobertura cambia a un color verde oscuro cuando esta regado apropiadamente; si es de color verde claro hay que agregar más agua.

For Dense Shade Areas

PLANTING SPECIFICATIONS

PLANTING RATE: 1 lb. per 20 sq. ft. (4 ft. x 5 ft. area)
PACKAGE COVERS UP TO: 60 sq. ft. (6 ft. x 10 ft. area)

Planting Thickness: 1/8"	**Traffic Tolerance:** Moderate
Seedling Emergence: 7-10 days	**Drought Tolerance:** Good
Light Required: Medium to Heavy Shade	**Recommended Mowing Height:** 2½-3"

Thick, Beautiful Grass - Guaranteed!

1. PREPARE
Remove debris, then rake the soil to loosen and smooth the top layer.

2. APPLY
Spread seeding mix no more than 1/8" thick everywhere lush, beautiful grass is desired.

3. WATER (Most Important Step)
Keep the soil moist! Water daily (twice a day if you have to) until grass sprouts and reaches about 2½-3" tall. Mulch turns darker green when it's properly watered; if it's light green, add more water.

ADDITIONAL CARE TIPS

- Once your grass is 1/3 taller than the recommended mowing height you may begin mowing it.
- Avoid removing more than 1/3 of the total grass blade length at any single mowing to keep your grass thick and beautiful.
- Increase your mowing height in summer months to reduce grass stress.

IMPORTANT: Applying weed control products to grass prior to seeding can affect the seeds' ability to grow. Be sure to read and follow all manufacturer's recommendations and application instructions prior to applying any weed control products and prior to seeding. Additionally, do not apply any weed control products to newly seeded areas until the grass is established and has been mowed at least 3 or 4 times. Once newly seeded areas are established, you can begin a regular feeding schedule.
